CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500

Mahatma Gandhi College, Darbhanga is an affiliated college of Lalit Narayan Mithila University. This College follows a pre-determined syllabus set by the parent University. Periodical innovations are made within these established academic structures, committed to providing complete development for its students in all respect. Timetables, workloads and other supporting administrative tasks are prepared well in advance of teaching session and streamlined for Academic processes. At the end of each academic session, Departmental reports are collected, documenting the academic and extracurricular work undertaken by each department in that year which enables a systematic compilation of response. Extensive support is being provided to our teachers regularly to update their knowledge and continuous growth, through active involvement in Research and Faculty Development Programmes. Technologically enabled infrastructure is ensured for everyone, with special assistance for the students with incapability, which makes it possible for all our students to engage in an appropriate teaching-learning process. This College prioritizes the incorporation of academic and mental health of our students through the mentor-ward system where each student is assigned a faculty mentor for academic and extra-academic guidance. Academic and other discussions are individualized by creating smaller groups of students. Through focused interactions and guidance offered by the teachers, students are able to have their academic and other issues suitably addressed, thus complementing the pursuit of effective curriculum transaction for a strong tutorial and mentor-ward system. Feedback forms are provided for students, teachers, alumni, employers, parents, and the non-teaching staff so as to enable the concerned stakeholders to confidentially give the college their evaluations and suggestions for the improvement of College functioning. Incorporation of all these suggestions is ensured in the functioning of the college. So as to enable our students to enthusiastically contribute and excel in diverse arenas, equal importance is given to provide a space for collegiate events like, Sports Day, Arts Day, Cultural Day etc., as the qualitative impact of an inclusive and balanced education allows for all-round development of the students. The endeavor of this college has always been to raise the consciousness about gender-based inequalities, negligence of environmental concerns and lack of ethics which subsequently allows them to contribute to the society as responsible human beings.

(maximum 500 words)

Feedback Obtained
<p>The Institution collects feedback from students and Teachers which is an important method of measuring attainment with objectives of identifying the attainment level of students in terms of programme, subject, course and syllabus outcomes to understand the impact of teaching learning process. Collecting feedback from stakeholders like teachers and students to facilitate teaching-learning reforms helped us in obtaining an unbiased and honest opinion about the institutional performance especially in academics. Student feedback of teachers is conducted regularly. A careful analysis of the feedback received is done and communicated to the teachers to enable them to enhance their teaching skills and their relationship with the students. Based on the information received due to implementation of the above practices, we were been able to develop a system for conscious, consistent and catalytic action to bring about reforms in teaching-learning process, structure, methodologies and learning outcomes.</p>

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

Since this College is an affiliated college of Lalit Narayan Mithila University, it follows the guidelines set by the University for the conduct of examinations. At the end of each semester, there is a final exam which is uniformly conducted for students across all the colleges of this University. The institution has a well-defined system in place to deal with examination related grievances. The faculty addresses the rightful grievances of the students pertaining to the marks obtained in the internal assessment. The evaluated papers related to internal examination consisting of class tests, assignments, projects, etc. are returned to students with detailed remarks and suggestions for improvement. Any query of students regarding the feedback and evaluation is thoroughly addressed by the respective teachers. There is a Committee at the college level that looks into any discrepancies in Internal Assessment marks and takes requisite steps to ensure transparency and objectivity. If any error is detected in the final mark-sheet in spite of rigorous scrutiny, it is promptly reported to the University by the College. Hence the College employs a robust multi-tiered mechanism to ensure transparency and objectivity in dealing with grievances related to internal examinations.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

1. (a) The Title of the Practice: Entrepreneurship Development Initiative. (b). Goal : The aim of this initiative is to promote Entrepreneurship skills among student community and also promote gainful employment opportunities. (c). The Context : Modern day is the day of entrepreneurship. Students after completing their course programmes go in search of employment, but only a few could get employment they prefer or desire. Considering this and keeping in tune with the vision of the Institution, College has devised various Entrepreneurship Development Initiatives so that the students can utilise their talent and skills to make a better living. These students groups from the College level can join together to form their own units and become successful entrepreneurs of tomorrow. (d). The Practice : College has been imparting various programmes for skill development of students. (e). Problems Encountered and Resources required: Funding is a problem for the College. There is time constraint for students to pursue these activities. However faculty and students tries their best to overcome the hurdles and to bring in positive results. Educational institutions can help students develop their skills by merging theory to practice. The students can get a base with the support of faculty and peers. This is to be looked into by the educational institutions. 2. (a) The Title of the Practice- Solid Waste Management. (b) Goal : This practice aims to create awareness among general public on the importance of effective solid waste management and encouraging reuse of nonbiodegradable wastes. (c). The Context : Waste Management is widely discussed in the present day. There are several issues related to in effective management of solid wastes. Keeping this mind an effort was taken create an awareness on the issue to prevent adverse impacts on man and other living organisms. Students and staff collected the plastics and other e-wastes from the college campus and houses and handed over it to various agencies for recycling. Training was given to produce decors and other articles of use from discarded plastics. (d). Evidence of Success : The school management and the teachers have reported they have advised the student community to deposit their food waste into the bio-bins and waste food management was thus effectively carried out in especially those schools where space is a limiting factor. The plastic and e-wastes that are quite difficult to be managed were collected and distributed to agencies that deal with e-waste management. The skill enhancement course on plastic reuse has enabled the student community to make beautiful products out of worn out plastics thus promoting plastic recycling. (e). Problems Encountered and Resources required: Though a major share of people were interested in effective solid waste management, there are some who neglect the aftermath of inefficient management practices. Hence, creating awareness to those people was a challenge. The residents of apartments were confused as to how the compost can be used as they have no space to carry out organic farming. Though the initiative is a just a beginning, it can bring in remarkable changes especially in an urban locality. An educational institution with a large number of students can play a significant role in preventing unethical waste disposal strategies.
