Part B

CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500

words

Mahatma Gandhi College, Darbhanga is an affiliated college of Lalit Narayan Mithila University. This College follows a pre- determined syllabus set by the parent University. Periodical innovations are made within these established academic structures, committed to providing complete development for its students in all respect. Timetables, workloads and other supporting administrative tasks are prepared well in advance of teaching session and streamlined for Academic processes. At the end of each academic session, Departmental reports are collected, documenting the academic and extracurricular work undertaken by each department in that year which enables a systematic compilation of response. Extensive support is being provided to our teachers regularly to update their knowledge and continuous growth, through active involvement in Research and Faculty Development Programmes. Technologically enabled infrastructure is ensured for everyone, with special assistance for the students with incapability, which makes it possible for all our students to engage in an appropriate teaching- learning process. This College prioritizes the incorporation of academic and mental health of our students through the mentor-ward system where each student is assigned a faculty mentor for academic and extra-academic guidance. Academic and other discussions are individualized by creating smaller groups of students. Through focused interactions and guidance offered by the teachers, students are able to have their academic and other issues suitably addressed, thus complementing the pursuit of effective curriculum transaction for a strong tutorial and mentorward system. Feedback forms are provided for students, teachers, alumni, employers, parents, and the non-teaching staff so as to enable the concerned stakeholders to confidentially give the college their evaluations and suggestions for the improvement of College functioning. Incorporation of all these suggestions is ensured in the functioning of the college. So as to enable our students to enthusiastically contribute and excel in diverse arenas, equal importance is given to provide a space for collegiate events like, Sports Day, Arts Day, Cultural Day etc., as the qualitative impact of an inclusive and balanced education allows for all-round development of the students. The endeavor of this college has always been to raise the consciousness about gender-based inequalities, negligence of environmental concerns and lack of ethics which subsequently allows them to contribute to the society as

Fe	eedback Obtained								
in at sy	The Institution collects feedback from students and Teachers which is an important method of measuring attainment with objectives of identifying the attainment level of students in terms of programme, subject, course and syllabus outcomes to understand the impact of teaching learning process. Collecting feedback from stakeholders like teachers and students to facilitate teaching-learning reforms helped us in obtaining an unbiased and honest opinion about the institutional performance especially in academics. Student feedback of teachers is conducted regularly. A careful analysis of the feedback received is done and communicated to the teachers to enable them to enhance their teaching skills and their relationship with the students. Based on the information received due to implementation of the above practices, we were been able to develop a system for conscious, consistent and catalytic action to bring about reforms in teaching-learning process, structure, methodologies and

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

Nil

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

Since this College is an affiliated college of Lalit Narayan Mithila University, it follows the guidelines set by the University for the conduct of examinations. At the end of each semester, there is a final exam which is uniformly conducted for students across all the colleges of this University. The institution has a well-defined system in place to deal with examination related grievances. The faculty addresses the rightful grievances of the students pertaining to the marks obtained in the internal assessment. The evaluated papers related to internal examination consisting of class tests, assignments, projects, etc. are returned to students with detailed remarks and suggestions for improvement. Any query of students regarding the feedback and evaluation is thoroughly addressed by the respective teachers. There is a Committee at the college level that looks into any discrepancies in Internal Assessment marks and takes requisite steps to ensure transparency and objectivity. If any error is detected in the final mark-sheet in spite of rigorous scrutiny, it is promptly reported to the University by the College. Hence the College employs a robust multi-tiered mechanism to ensure transparency and objectivity in dealing with grievances related to internal examinations.

2.6 – Student Performance and Learning Outcomes

2.6.1 – Program outcomes, program specific outcomes and course outcomes for all programs offered by the institution are stated and displayed in website of the institution (to provide the weblink)

4.4 – Maintenance of Campus Infrastructure

4.4.1 – Expenditure incurred on maintenance of physical facilities and academic support facilities, excluding salary component, during the year

Assigned Budget on academic facilities	Expenditure incurred on maintenance of academic facilities	Assigned budget on physical facilities	Expenditure incurredon maintenance of physical facilites
0.67	0.67	5.83	5.83

4.4.2 – Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website, provide link)

As per the rules and policies of the institution, all the stakeholders have fair opportunity to access and use the physical, academic and support facilities of the college, like auditoriums, laboratory, library, sports complex, computers, classrooms etc. Maintenance Cleaning and general maintenance of the classrooms and other physical spaces are done by dedicated staff on a regular basis. The requirement for repair, maintenance, troubleshooting of equipment/ facilities are reported to the IQAC Coordinator by the concerned departments. The IQAC Coordinator, in turn, will compile all such requirements and place before the IQAC members in the committee meeting for further deliberations and financial approval. Once approved, the competent authority verifies the same and assigns the tasks to the concerned facility management department. Utilization of Extraordinary Infrastructure To avail and utilise special physical facility/infrastructure like seminar halls, auditoriums, conference halls, a request cum proposal is placed to the Principal for approval, through the Administrative Office. On approval, the same is allotted to the concerned agency as per the policy in vogue. Library List of new books requested by the Head of the Department in consultation with the Department Council and the Department Faculty is submitted to the Principal. Once approved, the list is forwarded to the Librarian, for further submission to the Purchase Committee. The use of library and its facilities is governed by the rules of the Library. ICT Facilities The ICT smart classrooms and all those computer related facilities are maintained by the technically skilled experts appointed by the management. Laboratory Laboratories in various departments are directly under the custodianship of respective Departments and its heads. Lab maintenance staff is responsible for regular maintenance of facilities. Rules and regulations to utilize them are displayed at prominent places in the laboratories. Sports Complex The use and training of sports facilities regularly takes place in the sports complex under the supervision of Physical Education Director with the association of Physical Education Instructors and coaches, to ensure efficient utilization of sports infrastructure.

their course programmes go in search of employment, but only a few could get employment they prefer or desire. Considering this and keeping in tune with the vision of the Institution, College has devised various Entrepreneurship Development Initiatives so that the students can utilise their talent and skills to make a better living. These students groups from the College level can join together to form their own units and become successful entrepreneurs of tomorrow. (d). The Practice : College has been imparting various programmes for skill development of students. (e). Problems Encountered and Resources required: Funding is a problem for the College. There is time constraint for students to pursue these activities. However faculty and students tries their best to overcome the hurdles and to bring in positive results. Educational institutions can help students develop their skills by merging theory to practice. The students can get a base with the support of faculty and peers. This is to be looked into by the educational institutions. 2. (a) The Title of the Practice- Solid Waste Management. (b) Goal : This practice aims to create awareness among general public on the importance of effective solid waste management and encouraging reuse of nonbiodegradable wastes. (c). The Context : Waste Management is widely discussed in the present day. There are several issues related to in effective management of solid wastes. Keeping this mind an effort was taken create an awareness on the issue to prevent adverse impacts on man and other living organisms. Students and staff collected the plastics and other e-wastes from the college campus and houses and handed over it to various agencies for recycling. Training was given to produce decors and other articles of use from discarded plastics. (d). Evidence of Success : The school management and the teachers have reported they have advised the student community to deposit their food waste into the bio-bins and waste food management was thus effectively carried out in especially those schools where space is a limiting factor. The plastic and e-wastes that are quite difficult to be managed were collected and distributed to agencies that deal with e-waste management. The skill enhancement course on plastic reuse has enabled the student community to make beautiful products out of worn out plastics thus promoting plastic recycling. (e). Problems Encountered and Resources required: Though a major share of people were interested in effective solid waste management, there are some who neglect the aftermath of inefficient management practices. Hence, creating awareness to those people was a challenge. The residents of apartments were confused as to how the compost can be used as they have no space to carry out organic farming. Though the initiative is a just a beginning, it can bring in remarkable changes especially in an urban locality. An educational institution with a large number of students can play a significant role in preventing unethical waste disposal strategies.

Upload details of two best practices successfully implemented by the institution as per NAAC format in your institution website, provide the link

https://mgcollegelnmu.ac.in/best-practices/

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The institution imparts general education for all in general. The college keeps a vigil eye on each student to empower them to cope up with the present scenario. The college has special plan to promote gender equality by ensuring health, safety and well being of the students. They are projected and promoted to have out their skills by taking the community services into consideration. They are prepared to face and meet the challenges of present scenario by giving their best. The college provides platform to the students to chisel their latent talent in all the fields. The college has been undertaking various steps to ensure the motive such as programs to build self esteem and confidence, Awareness programs related to health and hygiene, Legal rights awareness program, talks about issues like gender equality, Training programme etc. Other initiatives by the college are:- 1. Teaching skills to do the best for community or society. 2. Providing quality educations in all disciplines. 3. Bringing more and more of those deprived into the fold of formal and higher education. 4. Committed to provide a healthy blend of tradition and modernity in education and looks for innovative pedagogy in teaching research and extension activities. 5. Creating an environment of intellectual competence, scientific temper, environment consciousness, and awareness towards social responsibilities. 6. Educating the new generation in contemporary knowledge and skill to meet the challenges of nation building. 7. Inculcating a sense of moral values, national pride and universal brotherhood among students.

Provide the weblink of the institution
