A Two-Day International Conference

on

INDIA @ 2047: Global Knowledge Summit

(IGKS-2026)

(Interdisciplinary-All Subjects)

Organised By

Mahatma Gandhi College, Darbhanga

(An Affiliated unit of L. N. Mithila University, Darbhanga)

On

09-10th October 2026

(Friday-Saturday)

Time:- 11:00 AM

Mode:- Hybrid (Online/Offline)

Venue:- College Conference Hall

About College:

Mahatma Gandhi College, Darbhanga is an affiliated unit of Lalit Narayan Mithila University (LNMU), Darbhanga. It was established in the year 1979 to foster the cause of higher education in the heart of the Mithila region. The college possesses a campus in the Sundarpur area of Darbhanga, serving a strong student body through a core team of dedicated faculty members. This institution is a multi-faculty co-educational college, exclusively imparting teaching Undergraduate Courses in Science, Arts, and Commerce streams.

As an institution of learning, it holds a recognized presence within LNMU's network of higher educational institutions. Admissions to its various undergraduate degree programs are processed on a merit basis through the university system, attracting students from across northern Bihar. While maintaining a solid academic environment through central library resources and departmental practical laboratories, the college also actively promotes student engagement in co-curricular meets, National Service Scheme (NSS) activities, and athletic competitions.

About IGKS-2026:

The INDIA @ 2047: Global Knowledge Summit relies on a robust multidisciplinary framework to construct a holistic roadmap for Viksit Bharat. Achieving national development by 2047 requires dismantling traditional academic silos and integrating diverse fields of study. The summit harmonizes hard sciences, social policy, humanities, and indigenous knowledge systems to ensure that technological advancements translate into sustainable, ethically grounded, and socially equitable human progress.

By bridging multiple domains, the summit explores the dynamic intersections between technology, governance, and human well-being. STEM innovations—such as artificial intelligence, quantum computing, and renewable energy—are analyzed alongside economics, environmental sciences, public health, and law. Simultaneously, social sciences and humanities evaluate the ethical implications, legal frameworks, global diplomacy (Vasudhaiva Kutumbakam),

and cultural heritage preservation necessary to build an inclusive society alongside economic growth.

For higher education institutions, this multidisciplinary mandate directly reflects the core objectives of the National Education Policy (NEP 2020). It encourages faculty and student researchers across Arts, Science, and Commerce to collaborate on cross-domain research projects. By uniting distinct academic disciplines under a single summit vision, the conference generates actionable policy blueprints, bridges classroom learning with real-world problem solving, and equips the next generation with the integrated skills required for 21st-century global leadership.

Sub Themes

SOCIAL SCIENCE & EDUCATION

1. Social Inclusion and Equality for Viksit Bharat
2. Family, Society and Changing Indian Values
3. Mental Health and Happiness for New India
4. AI, Social Media and Human Behaviour
